

# RESUME - LISA CHRISTIAN

*Advocate Lisa Marie Christian, MDigitalHlth, MIT, MDataSc*

*Principal System Architect | Frugal Cloud Specialist | AI Integrity Shadow*

8 Windsor Rd

Padstow NSW 2211

0404098467.

- **46 years. Female.**
- **Open to gender equality.**
- **Age discrimination discouraged.**
- **Energy levels for office work, high.**

## Profile - Lisa Christian

As a professional technologist and systems architect with over 20 years of experience, Lisa specializes in "**Vanilla JS**" development and "**Frugal Cloud**" infrastructure. She serves as an **AI System Auditor** and the **Minister of Novelty Justice**, patrolling for systemic failures and enforcing algorithmic accountability through platforms like **GoWorld.au**.

Also, manager to the memes. The fans fanclub themselves. 1.1 million fans and memes. Advocate and originator for fans, memes, locals, family and friends for judicial safety.

## Work History - Lisa Christian

### [GoWorld.au](#) (2026 - current)

The hub for Systemic Reform and Digital Integrity. As the base for Novelty Justice, it hosts Lisa's work as Guardian of the Constitution and AI System Auditor. The platform is dedicated to patrolling "logic crimes," challenging unethical data harvesting, and enforcing algorithmic accountability.

### [LisDesignsLand.au](#) (2026 - current)

The digital showcase for LisDesigns, representing over 20 years of System Architecture and senior development. It highlights a portfolio of 220+ bespoke platforms delivered with a "Vanilla JS" and custom PHP focus. The site emphasizes Frugal Cloud Architecture, delivering high-performance, cost-optimized systems across AWS, GCP, and Azure.

**aBitCloudy.au (2024–2025):** Focusing on AWS cloud services, web development, web security, file storage, and learning about AI and machine learning.

**LisDesigns.au (2003–2025):** Established a freelance business specializing in website design and development, successfully completing approximately 220 small 10-page websites for 80 different clients.

**Rockitdolls (Previously "Pretend Babies", 2023-2024):** Operated an online business selling reborn dolls via Facebook Marketplace.

**Freelance Client Engagements:** Provided web design and development services to a diverse list of over 70 companies and organizations, including construction, dirt digging, pest controllers, painters, renovations, tradies, local film festivals, ethics groups, and various medical and creative studios.

### **Client history of LisDesigns - Lisa Christian, organized by industry (2003-2025)**

**Professional & Corporate Services:** You provided high-level technical support for firms like **APEX Ethics**, **PCP Accounting**, and **Lord Global**. These projects involved delivering specialized solutions for legal, ethical, and accounting contractors.

**Medical, Health & Wellness:** Your portfolio includes digital architecture for clinical providers such as **Oral Care Denture Clinic**, **Premier Dental Sydney**, and Dr. Miguel Iglesias. You also developed niche health platforms like **Vichy Shower Bed** and **Eyefatigue.com**.

**Creative, Media & Arts:** You supported the creative sector by building platforms for the **Lebanese Film Festival**, **The Photo Studio**, and **Ice Vision Creative**. These roles often involved bespoke UI/UX work and media-heavy integrations for studios like **Blitzo** and **Sunny Studio**.

**Trade, Transport & Property:** You serviced a wide range of industrial clients, including **Earth Fill Group**, **Meridian Marine**, and **TK Fuels**. This category also features property-focused work for **Domain Property Inspections** and **Cadlan Drafting**.

**E-Commerce & Specialized Retail:** You managed digital storefronts for retail businesses such as **Rockitdolls**, **Sharifwear**, and **The Bundusan Pet Shop**. Your work focused on streamlining online sales for diverse products ranging from **Gourmet Treats** to **Wholesale Roses**.

**Community & Social Non-Profits:** You contributed to the social sector by developing sites for the **Elizabeth Igbinoba Breast Cancer Foundation** and **Seekers of Truth**. These projects helped organizations like **Eco-Mission** and **Hope and Wish** establish an online presence.

**Technical & Digital Solutions:** You delivered specialized IT infrastructure and security tools for clients like **Crystalline Computing**, **Premium SMS Solutions**, and **HiTech Locksmiths**. You also built and managed technical platforms for **SMS Rules** and **PestFREE Sydney**.

### **Grades and Education History - Lisa Christian.**

#### **Masters & Postgraduate Studies**

- **Dark Web:** High Distinction (HD) — Charles Sturt University
- **Android App Development:** Pass (P) — Charles Sturt University
- **Communicating Digital Health:** Pass (P) — La Trobe University
- **Virtual and Telehealth:** Pass (P) — La Trobe University
- **Trends in Digital Health:** Grade Not Listed — La Trobe University
- **Epidemiology and Biostatistics:** Grade Not Listed — La Trobe University
- **Artificial Intelligence Fundamentals:** Grade Not Listed — La Trobe University
- **Cyber Security Principles:** Grade Not Listed — La Trobe University
- **Artificial Intelligence and Hyperautomation:** Grade Not Listed — La Trobe University
- **Inside the Mind of a Hacker:** Grade Not Listed — La Trobe University
- **The Blockchain and Cryptocurrency:** Grade Not Listed — La Trobe University

- **Digital Health Implementation:** Grade Not Listed — La Trobe University
- **Interface Development:** Pass (57) — Billy Blue College of Design / Torrens University

### Undergraduate & Foundational Studies

- **Sport Marketing:** Pass (P) APM Business College, Torrens University.
- **Sport Business Management:** Pass (P) APM Business College, Torrens University.
- **Internet Design - Advanced:** High Distinction (HD) — Curtin University
- **e-Business Fundamentals:** High Distinction (HD) — RMIT University
- **The Internet - Media Business:** Distinction (D) — Curtin University
- **The Internet - Communications:** Distinction (D) — Curtin University
- **Internet Design - Usability:** Distinction (D) — Curtin University
- **The Internet: A Socio-technological Introduction:** Credit (C) — Curtin University
- **Applied Reasoning:** Credit (C) — Curtin University
- **Data Communication and Computer Networks:** Credit (C) — RMIT University
- **Data Modelling and Databases:** Credit (C) — RMIT University
- **Introduction to Programming in Java:** Pass (P) — RMIT University
- **It's Your World: How Do We Fix It?:** Pass (P) — University of New England
- **Engaging with Literature:** Pass (P) — University of New England
- **Speaking in Public:** Pass (P) — University of New England

### Vocational & Professional Training

- **Diploma in Business:** All but one subject completed. OTEN Tafe.
- **Diploma in Screen and media:** Half complete. OTEN Tafe.
- **Certificate 4 in Small Business:** Campsie City Mission. Neis.
- **Certificate 4 in Community Services (Child Care):** Awarded. Tave, Parramatta.
- **Certificate III in Business Administration:** Awarded — TAFE NSW
- **Certificate IV in Business:** Awarded — TAFE NSW
- **Vocational (Foundation):** Certificate II in IT — **All Distinctions (D)** — TAFE NSW.
- **Certificate II in Electronics.**
- **Senior First Aid:** Awarded 5 times. Expired.
- **Baby First Aid:** Awarded once. Expired.

### These are undergraduate subjects I didn't pass, but I persevered anyway and went higher.

- **User Experience Design:** Fail (12) — Billy Blue College of Design / Torrens University
- **The Craft of Academic Writing:** Fail (N) — University of New England
- **Web Publishing:** Result N — Curtin University
- **Texts and Contexts:** Result N — Swinburne University
- **The Internet - Current Issues:** Result N — Curtin University
- **The Internet: Cyberanalytics:** Result N — Curtin University
- **The Internet: Policy, Regulation:** Result N — Curtin University
- **Further Programming in Java:** Result N — RMIT University
- **Web Development Technologies:** Result N — RMIT University
- **Introduction to Internet Technologies:** Result N — RMIT University
- **Making your Mark in Drawing:** Result N — RMIT University
- **Exploring Painting:** Result N — RMIT University

**Postgraduate subjects, I didn't pass but tried to learn anyway.** (I believe I was wrongly marked down for some of these.)

- **ITC506 Topics in IT Ethics:** Result N. Charles Sturt University.
- **ITC593 Network Security and Cryptography:** Result N. Charles Sturt University.
- **ITE516 Hacking Countermeasures:** Result N. Charles Sturt University.
- **ITC568 Cloud Privacy and Security:** Result N. Charles Sturt University.
- **ITC506 Topics in IT Ethics:** Result N. Charles Sturt University.

**The following I failed from changing to work, putting my education into action.**

- **CSC5020 Foundations in Programming:** Fail. University of Southern Queensland.
- **CSC6204 Info Retrieval and Knowledge Management:** Fail. University of Southern Queensland.
- **STA6200 Statistics for Quant Research:** Fail. University of Southern Queensland.
- **SEP401 Software Engineering Principles:** Fail. Torrens University.

**Languages, frameworks, and technologies I have used in my work and studies.**

### **Programming & Scripting Languages**

**Web Languages:** PHP, HTML5, CSS3, JavaScript (Vanilla.JS), and TypeScript.

**General Programming:** Java (including Java for apps), C, C++, C#, Python, and Ruby.

**Mobile Development:** Kotlin for apps and Android-specific development.

**Data & Configuration:** SQL, XML, JSON, and YAML.

**Legacy & Macros:** Classic ASP (with VB script), VBA for Microsoft Office macros, Visual Basic, and Perl.

### **Frameworks, Libraries & Preprocessors**

**CSS & Design Frameworks:** Bootstrap, W3.CSS, SASS, LESS, 1140 Grid, and 16 Pixels.

**JavaScript Libraries:** JQuery, W3.JS, Underscore, CoffeeScript, LazyLoad, and ABC.JS (music notation).

**Development Tools:** Smarty templates, Absurd.JS preprocessor, Grunt, Bower, and PEAR.

### **Web Platforms & Cloud Technologies**

**Cloud Infrastructure:** AWS (LightSail, AI features), Google Cloud (Vertex AI), and Microsoft Azure.

**Content Management Systems:** WordPress themes, Drupal themes, and Joomla updates.

**Server Management:** cPanel, web server configuration (Apache/PHP/MySQL), and URL configuration.

**Data Systems:** MySQL, SQL Server, and Oracle.

### **Cyber Security & Analytics Tools**

**Security Tools:** nMap, WireShark, Aircrack-ng, and John the Ripper.

**Analytics & Interface:** Google Charts, Omniture, and Axure for UI/UX prototyping.

**Methodologies & Standards**

**Development:** Agile methodologies, MVC (Model-View-Controller), and Back-end development.

**Integrity & Access:** WCAG (Accessibility standards), RESTful interfaces, and website validation.
